

Since founded in 1992, Equipsa Enterprises Inc. Has specialized in the provision of machinery, equipment and spare parts for the mining, industrial and oil industries. Our quality policy has been to obtain and to maintain clients satisfied through a constant and continuous presence of our highly qualified personnel, certified by manufacturers of the products that we represent.

The experience acquired through 18 years has helped us to consolidate as a leader company, reliable in the integral services of field instrumentation.

The trustworthiness and quality of our products have taken us to the establishment of large provision contracts of equipment with companies in several markets, such as state companies of the private sector.
